The adoption of a "free coniage" plank the next national platform of the nong Democratic leaders at Washington. Mr. Springer, chairman of the Ways and Means Committee, favors an Chicago in 1893, where the free coinage mestion can be discussed by the leading nanciers of the country and then if thought best to have free and unlimited coinage in this country let Congress pass such measures as will be best conducive to that end. Senator Carlisle favors such a move, while other Democratic Senators hold that this would be simply dodging the question, and that the party should not dally about the matter now but give the people what they want and that which a large number of them demand. It is known that the party is to such a degree that no uniformity of opinion seems likely to be reached soon. Mr. Watterson thinks that nothing should be allowed to come into the cam paign that will subordinate the tariff, and that the party should stand as a unit in this campaign for tariff reform.

There seems to be something that smells bad in the Paynesville post-office. Why they should have made such a report we do not understand, as it is a matter purely in the hands of the Senators and Representatives of the State, but in their wisdom(?)they have torn our old beloved and fraternal Sixth District into smithe reens. Never has anything but the best of feeling and the most friendly relations existed between the counties composing said District, viz: Breckenridge, Meade Hardin, Grayson and Edmonson. That our district is too large as to the number of courts necessary to be held under our new Constitution, no one will deny, but why should Edmonson be cast to the south, Breckenridge to the north and Gravson and Hardin to the east as "the wise men" recommend? There is not the slightest affinity existing between our sister county, Hart and Grayson, nor never was. Why this is so, we cannot tell. There is nothing between us except the placid waters of that purest of all streams, Nolin river. Yet her young men never come courting our fair daughters, nor do our gallant youths ever cross that peaceful stream seeking the hand of the winsom lassies of Hart, and as to LaRue, we never heard of any one from that county except Dave Smith who acquired his brilliant education in our schools. Then why should we be so ruthlessly divorced from Breckenridge, Meade and Edmonson to whom we have been so happily mated, and spoused to such strangers as Hart and LaRue as said "wise men" suggested? We will not have it so. We are married to our first love, and are opposed to a district composed of LaRue, Hardin, Grayson and Hart, as the "wise men" decree. We regret to sever our connection with Edmonson, but in as much as our district is too large and Warren county wants Edmonson and Edmonson wants to go off with her because of their close proximity by rail, etc., we are willing that our old district should stand as now is with Edmonson off.
